2/14

## **VECTOR TANDEM (GREY) MILITARY CONTAINERS, MVT 421 MILITARY CANOPIES AND CYPRES MILITARY AADs**

It has come to light that a number of Ex-Military (grey colour) Tandem containers and Tandem reserve parachutes (MVT 421) are being/have been used at a number of BPA Affiliated Clubs. These containers and reserves canopies are not cleared for use in the Sport Parachuting role and are therefore grounded with immediate effect.

Some of these containers may have been modified in some way. They are also grounded and are not to be used.

There are also a number of Cypres Military (green button) that were fitted to the above containers. These have not been accepted for Sport Parachuting and are therefore also grounded.
